Vote NO to SB184 & HB5262 Regarding Changes in Election Administration

Dear Members of the Committee on Government Administration and Elections:

There is no reason to redefine the statute or redefine an illness so that every person in Connecticut receives an absentee ballot. We would waste millions of taxpayer dollars and open us to voter fraud. People already have the option to request a ballot, if needed. We do not have the proper checks and balances to prevent massive fraud. Our voting system needs be strengthened - not weakened.

Thank you for your time,
Jennifer Giustra-Kozek
